

# BRAINERD DAILY DISPATCH.

VOLUME 1, NO. 185.

BRAINERD, MINN., TUESDAY JANUARY 7, 1902.

PRICE TWO CENTS.

## The Best Goods In the World Are

**S** Premium Hams.  
**W** Premium Bacon.  
**I** Silver Leaf Lard.  
**F** Premium Sausage.  
**T** Cooked Ham.  
**S** Dried Beef.  
**R** Home Made Bread.  
**E** Whole Wheat Bread.  
**C** Vienne Bread.  
**A** Rye Bread.  
**N** Graham Bread.  
**S** Cakes.

We not only carry all of the above but also

## Swift's Choice Beef, Pork, Veal, Mutton, and Lamb.

We handle nothing but the very best of everything.

Limberger and Brick Cheese.  
**PAINE & McCINN,**  
Blue Front Market, Sixth Street.

## FINED FOR CONTEMPT

JUDGE NOYES' POSITION SAVES  
HIM FROM BEING SENT TO  
PRISON.

## TWO OTHERS MUST DO TIME

District Attorney Wood Given Four  
Months and Assistant Frost One  
Year—The Judge Must Pay One  
Thousand Dollars—Circuit Court of  
Appeals Also Charges Them With  
Conspiring to Defraud Miners.

San Francisco, Jan. 7.—The United States circuit court of appeals has fined Judge Arthur H. Noyes \$1,000 for contempt of court. United States District Attorney Joseph K. Wood and his assistant, C. A. S. Frost, were sentenced to imprisonment for terms of four months and one year respectively. The only one of the defendants present was Frost. The opinion of the court was read by Judge Morrow, who said:

"I concur in the finding of fact contained in the opinion of Judge Gilbert in the case of Arthur H. Noyes, Joseph K. Wood and C. A. S. Frost. I am also of the opinion that the evidence does not establish the charge against Thomas J. Geary.

"In my judgment the evidence established the fact that there was a conspiracy between the respondent, Alex MacKenzie, and others to secure possession of certain valuable mining claims in Alaska under proceedings involving the appointment of a receiver for the purpose of working the properties and obtaining the gold deposited in the claims. To carry these proceedings to a supposed conclusion Noyes, MacKenzie and others found it a necessary part of their scheme to resort to the process of this court. In pursuance of this conspiracy the contempt charged against Noyes was committed, but I agree with Judge Gilbert that this conspiracy is outside the charge of contempt, and in view of the fact that the respondent Noyes holds a judicial position I concur in his judgment that the respondent be required to pay a fine of \$1,000."

Judge Gilbert and Judge Morrow were of the same opinion in all respects.

## IS NOT THE WHOLE THING.

Darius Miller Will Have Charge of  
Only the Burlington Traffic.

Chicago, Jan. 7.—The impression that Darius Miller was to have charge of the traffic of the Northern Pacific as well as of the Burlington seems to be wrong. Mr. Miller said during the day that he would have no authority over the traffic of the Northern Pacific or the Great Northern, and that his efforts would be confined to the traffic of the Burlington. This assertion is borne out by a circular issued over James J. Hill's signature to the effect that Vice President Blabon will have charge of the traffic of the Great Northern and "will be assigned to the duties of Darius Miller, formerly second vice president of the Great Northern, who has resigned to accept service with the Chicago, Burlington and Quincy Railway company."

## ARGENTINE IS SATISFIED.

Declaration by Chile Relative to the  
Yanez-Portella Protocol.

Buenos Ayres, Jan. 7.—The declaration by Chile relative to the meaning of the paragraphs of the Yanez-Portella

tella protocol concerning the policing of the territory known as Ultima Esperanza are satisfactory to Argentine.

Inasmuch as the points wherein Argentine considered herself aggrieved by Chile have been provided for the two governments will approve the paragraphs in discussion, thus putting an end to the claims arising from the Ultima Esperanza incident.

Public opinion is satisfied and expresses its approval of the energetic attitude of the Argentine government.

## WANTS MUNICIPAL OWNERSHIP.

Mayor Harrison Sends a Message to  
the Chicago Council.

Chicago, Jan. 7.—In a message to the city council on the traction question Mayor Harrison declared that he never would give his official consent to a franchise extension which did not contain provisions making possible ultimate municipal ownership, nor to a franchise which did not require ratification by a referendum vote of the people before it took effect.

No municipal ownership clause will do, he declared, which depends on the preliminary passage of enabling legislation by the state legislature. Legislation first and franchises afterward was his motto.

## PORTO RICAN LEGISLATURE.

Educational Budget Provides for Half  
a Million Expenditures.

San Juan, Porto Rico, Jan. 7.—The Porto Rican legislature, which convened on Jan. 2, is working harmoniously. Ten bills have already been introduced, one of which appropriates \$50,000 for sending a Porto Rican exhibit to the St. Louis exposition.

The educational section of the budget is also up for approval. It provides for the expenditure of \$100,000 more than was asked for educational purposes last year, when 200 additional schoolhouses and an appropriation of \$400,000 were proposed.

## Kitchener Denies the Report.

London, Jan. 7.—The war office, on the authority of Lord Kitchener, has denied the report telegraphed from Pretoria Jan. 1 that two officers of the intelligence department who were sent to parley with Boers who desired to surrender near Warm Baths were treacherously shot by concealed Boers.

## Anti-Mergerites in Washington.

Washington, Jan. 7.—W. B. Douglas, attorney general of Minnesota, and M. D. Munn of St. Paul, assistant counsel, are in Washington for the purpose of asking permission of the United States supreme court to file a petition of mandamus against the so-called Northern Pacific merger.

## Want the Raines Law Amended.

New York, Jan. 7.—After a private conference between District Attorney Jerome and others relative to the excise question it was announced that a sub-committee will draft a bill for introduction into the legislature at Albany amending the existing excise law known as the Raines law, to provide in part that saloons may remain open on Sundays from 1 o'clock in the afternoon until 11 at night.

## Work on the Fair Begun.

St. Louis, Jan. 7.—Director of Works Isaac S. Taylor began the task of building the world's fair of 1903 at 6 a. m., when several hundred laborers started to change the course of the river Des Peres in its meanderings across the exposition site. Before the executive committee of the exposition Mr. Taylor expressed the hope that 1,500 men would be at work on the fair site within 48 hours.

Duluth, Jan. 7.—The city council has adopted resolutions urging Congressman Morris to get the Chippewa Indian reservation opened as soon as possible and advising him to modify his bill so it cannot pass in its present form.

## TO EXCLUDE CHINESE

PACIFIC COAST MEMBERS PRE-  
PARE A COMPREHENSIVE  
MEASURE.

## WILL HAVE NO TIME LIMIT

If Passed the Law Will Be Perpetual  
Unless Repealed—Severe Penalties  
Provided for Steamship Companies  
Violating Its Provisions—Is Very  
Explicit in Designating the Persons  
Who May Come In.

Washington, Jan. 7.—The senators and representatives of the Pacific coast who have been considering a bill for Chinese exclusion have perfected a measure which will be introduced in both houses in a few days. It is much more comprehensive than any bills that have been presented heretofore on this subject, most of which simply provide for excluding Chinese or re-enacting the Geary law. The bill under consideration contains 45 pages. It does not limit itself to any term of years as did the Geary act, but if passed in its present form would be perpetual unless repealed.

The bill declares that all Chinese other than citizens of the United States, or those who are secured in coming to and residing in the United States under the present treaty with China, shall be refused admission and returned to the country whence they came at the expense of the transportation company bringing them. Transportation companies bringing Chinese to the United States shall detain them until their rights of admission shall be ascertained. Penalties are provided for not complying with the provisions of the act, \$1,000 and one year's imprisonment being the minimum, with a liability to forfeiture of vessels violating any of the provisions of the law. The only Chinese persons permitted to enter the United States under the act are those who have become citizens by birth and naturalization, and officials of the Chinese government, teachers, students, merchants, travelers for pleasure or curiosity, returning laborers, who must have certificates, or domiciled merchants. Chinese coming as above enumerated must have certificates with a photograph attached. Chinese in Hawaii, the Philippines and Porto Rico are not allowed to enter the United States, nor are Chinese allowed to enter these islands.

## FOR THE PHILIPPINES.

Bill Providing a System of Civil Govern-  
ment Will Be Introduced.

Washington, Jan. 7.—Representative Cooper of Wisconsin, chairman of the insular committee of the house of representatives, will introduce a bill providing for a system of civil government for the Philippines. The bill is the result of extended conferences which have been held of late between the war department officials and senators and representatives interested in insular legislation and it follows to a large extent the recommendations of the Philippine commission. Provisions are incorporated regulating corporate franchises, establishing regulations for mining, timber and land operations and establishing the preliminary steps by which self-government shall be undertaken by the people of the islands.

A similar bill will be introduced in the senate by Mr. Lodge.

## TO UTILIZE LIGNITE COAL.

A Minnesota Expert Learning German  
Methods.

Berlin, Jan. 7.—Investigations concluded in Germany by Lucius Storr of St. Paul, Minn., geologist, may result in the opening of vast coal fields on the Hill system. Mr. Storr has made an exhaustive inquiry into the use of lignite or brown coal briquettes, which are burned on the German railways.

He believes that enormous quantities of lignite buried in the Northwest of the United States and hitherto considered unfit for firing purposes may, through the German process, be utilized with great advantage, and may even ultimately obviate the necessity of transporting Eastern bituminous coal to the West.

Mr. Storr has also studied the system of retort coke ovens, which gives Germany one great advantage in the manufacture of iron.

## Another Schley Resolution.

Washington, Jan. 7.—Another Schley resolution was introduced in the house by Representative Schirm of Maryland. It provides an appropriation of \$12,000 for bronze tablets commemorating six great naval victories, beginning with those of John Paul Jones in 1797 and closing with the battle of Santiago bay, "Commodore Winfield Scott Schley commanding," in 1898.

## Wood Fixes the Price of Gas.

Havana, Jan. 7.—General Wood has issued a decree fixing the price of gas at \$2.50 in Spanish gold per 1,000 cubic feet. The former price was about \$3.75 per 1,000 cubic feet. This decree also regulates the price for the use of 200 16-candle power electric lights in public places at \$1.10 per month each.

## CANNOT DO BUSINESS.

City of Milwaukee Finds Itself With-  
out a Comptroller.

Milwaukee, Jan. 7.—The city of Milwaukee is without a comptroller, and, according to some of the high officials, cannot do business and is therefore at a standstill. The office of comptroller was rendered vacant by the commitment of Comptroller John R. Wolf to the county hospital for the insane on Saturday last. Mayor Rose offered the position of comptroller to ex-Governor George Peck, who had just about decided to accept the position, but on learning that no provision had been made in the city charter for such an emergency decided to refuse the appointment.

City Clerk Schuengel says he will not pay out a cent over his counter without an order being signed by the comptroller and many items will thus be hung up temporarily at least. It is the opinion of City Attorney Runge that the vacancy can only be filled by a special notice, which must be given six days in advance.

Among the matters hung up thereby are the payment of city employees, the issuing of \$400,000 school bonds, the letting of various contracts and the preparation of the annual budget.

Mayor Rose said that while he was aware of the conditions of the city charter he had no fears of a suspension of business and that some provision would be made at a special meeting of the common council for meeting the emergency.

## HELD HAD NO CHANCE.

His Slayer Was a Dead Shot With  
the Pistol.

Berlin, Jan. 7.—Full narratives of the duel fought last Thursday at Jena, in the duchy of Saxe-Weimar-Eisenach, in which Lieutenant Thieme killed a student of Halle university named Held by shooting him through the heart, are producing a deep sensation throughout Germany.

Lieutenant Thieme is the best pistol shot of his regiment, and pistols were selected by the court of honor, composed exclusively of army officers, notwithstanding the fact that the student societies proposed the use of sabres. The court of honor stipulated that five shots be exchanged between the duellists, consequently Held had little chance to escape. He was killed at the third exchange of shots.

The duel resulted from a party of students having jostled some army officers in the street. Held was with the students and he slapped the face of Lieutenant Thieme, who was in plain clothes.

## AN UNQUALIFIED SUCCESS.

Battleship Illinois Placed in the New  
Floating Dry Dock.

New Orleans, Jan. 7.—The battleship Illinois rests in the New Orleans floating dry dock and will have her bottom scraped and be put back into the water about Friday. The Illinois is the largest vessel ever docked by a floating dry dock. Stettin, Germany, has a dock with 11,000 tons capacity. The Illinois has 12,000 tons displacement, but the dock has a capacity of 18,000 tons.

The battleship was towed into the dock and the entire process of docking occupied 1 hour and 57 minutes, while the minimum contract limit was three hours.

## WHOLESALE EXECUTION.

Six White Men to Hang in North Caro-  
lina on Feb. 25.

Raleigh, N. C., Jan. 7.—Governor Aycock has named Wednesday, Feb. 25, for the hanging of six white men. Such a wholesale execution in one day is without precedent in this state. In each case there has been an appeal to the supreme court. Four men are to hang at Asheville for burglary, one is to hang at Wilson for assassination, and one at Lincolnton for a burglary in which a woman was horribly cut, a child born later having on its birthmarks similar to its mother's wounds.

## An Old-Time Banker Dead.

Mount Morris, N. J., Jan. 7.—Hirman P. Mills, one of the oldest bank presidents in the United States, died suddenly here during the day. He celebrated his 96th birthday on Thursday last and danced with the company. He chafed his son Charles, who is 70 years old, for quitting the dance before he did. Mr. Mills had been president of the Genesee River National bank continuously since its formation in 1853. He was one of the engineers of the old Genesee valley canal and helped lay the rails of the first railroad between Albany and Schenectady.

## FURNITURE MEN COMBINE.

Northern Iowa Dealers Organize for  
Mutual Protection.

Webster City, Ia., Jan. 7.—A furniture dealers' combine in North Iowa was formed at a meeting in this city during the day. About 70 of the furniture dealers of the northwestern part of the state met here and organized the Northern Iowa Furniture Dealers' association. The object of the organization is the mutual protection and benefit of the membership. All goods for the 70 members will be purchased by the president, J. A. Allington of this city. From here the goods will be shipped direct to the members over the territory, as they may wish.

## The Philadelphia at Panama.

Washington, Jan. 7.—The cruiser Philadelphia has reported by cable her arrival at Panama. She has been 17 days on the voyage from San Francisco, an unusual length of time. She will relieve the Concord on the Pacific side of the isthmus.

## HOFFMAN WILL NOT TRUST YOU

to this Snap,

## Too Much of a Good Thing

Last spring we were offered a great  
**BARGAIN in BLANKETS**

So we did what a great many dealers would do under like  
circumstances, we bought more than we can  
sell at a profit,

So you can have the benefit of our mistake.

1,000 Pairs to Close out at **ACTUAL COST.**  
This includes a few doz pair of **FOR CASH.**

Weather.  
Fair tonight and Wednesday.  
Warmer.

## LOCAL NEWS NOTES.

Dr. Bracken left for St. Paul last night.

Hon A. F. Ferris left this afternoon for St. Paul on business.

Judge McFadden last night united in marriage Phillip Sylvester and Mary Harju.

Mrs. Julia McDonald entertained a number of her lady friends last evening at cards.

John McCarthy returned this afternoon from St. Cloud where he visited for a day or two.

C. E. Walker, of Fargo, a popular and well known knight of grip, is in the city today on business.

Miss Georgia Clulow left this afternoon for Hamline to resume her work at Macalaster college.

Jacob Riggs returned to his home this morning after a few days visit in the city with relatives and friends.

There will be another rehearsal of the Elk's minstrels tonight at the opera house at 7:30 o'clock. A full attendance is desired.

V. L. Ellis was brought down from Motley this afternoon and taken to the St. Josephs hospital suffering from appendicitis. He will probably be operated on tomorrow.

Eddy, son of I. G. Whiting of Southeast Brainerd, on Sunday last, fell off a hand sled and broke his left arm between the elbow and wrist. The young lad is doing nicely.

There will be an open installation of White Cross Lodge, K. of P., on Friday evening. Refreshments will be served after the work and dancing will be indulged in.

Miss Mary L. Baker, who has been teaching school at Crow Wing, leaves soon for Aspen, Cal., where she has accepted a position in the schools of that place at \$75 per month.

President May Johnson, of the Rebecca Assembly, I. O. O. F., will be in the city tomorrow and is desirous of meeting the members of Florence Rebecca Lodge, I. O. O. F. in their hall at 2:30 o'clock.

Mr. and Mrs. E. M. Westfall expect to leave for Los Angeles, Cal., where they will spend the winter. Mr. Westfall has so arranged his business affairs that he can leave and he hopes that the change of climate will be beneficial to his health.

Mrs. Cady, of Walker, county superintendent of schools of Cass county, is in the city on her way to her home. She lost her pocketbook this morning and will gladly give the finder all the money in the same if it is returned.

## MUNICIPAL COURT.

Judge Mantor Has a Busy Day Yesterday--D. L. Richardson Pleads Guilty Again.

Yesterday afternoon D. L. Richardson was brought before Judge Mantor charged with defrauding a livery keeper. He decided to plead guilty and was fined \$2.50 and costs, amounting to something like \$11.

Fred Wright is evidently of the opinion that the old saying "time and tide wait for no man" was not exemplified in his case, for time did not seem to cut any figure with him. He returned to this city to work for the M. & I., after an absence of a year or two and was arrested on the charge of stealing a pair of pants from the Antlers hotel two years ago. He pleaded guilty and was fined \$25 or twenty days in jail.

Earnest Barrett has been arrested and was arraigned on the charge of the larceny of \$22 worth of stuff from Jesse Blake. His case was continued for one week.

The Maple Bay Windstacker Company has just built a big warehouse in Crookston, and it is expected that 500 machines will be built during the coming year. Work will be commenced Jan. 5.

## JUDGE FLEMING WAS APPOINTED.

By the Board of County Commissioners to Succeed County Attorney Alderman.

## BUT ONE BALLOT WAS TAKEN.

He Is One of the Ablest Lawyers in Northern Part of State.

The county commissioners met in regular session this morning at the court house and just before the noon hour the letter from Judge S. F. Alderman resigning as county attorney was read.

The board in view of the statement made in the communication accepted the same, but not without some expressions of regret.

They at once proceeded to ballot on a successor to Mr. Alderman and it required but one ballot to name his successor. The name of Judge W. A. Fleming was not formally presented but every member of the board but one voted for him. There was one vote for C. W. Crane.

Judge Fleming is too well known to Brainerd residents to need any extended mention. He has been prominent, though not as enthusiastic as many, in all questions of importance in this city and county for years. He is one of the ablest attorneys at the bar in the northern part of the state today and the general sentiment is that no better choice could be made for the position.

## MALT MADE FROM RICE.

Consul General Cole Writes From Dresden of a New Process.

In the latest consular reports received at Washington there appears a letter from Charles L. Cole, consul general at Dresden, describing an invention by Eugene C. Schrottky of Dresden for the making of malt from rice. The process, which is now being perfected, has already proved successful and promises to cheapen the cost of producing malt liquors in Europe.

A primitive method of malting rice, says Mr. Cole, has been known in Asia for many years, but the arrack produced is a fiery liquid, and the so called rice beer did not find favor except among the natives. The inventor claims that in the old process only about 40 per cent of the rice germinated, an equal amount failed to germinate, while 20 per cent decayed, tainting the fermented portion and resulting in an unwholesome product. By means of the new system, which consists essentially of a treatment of the rice lasting five or six days of alternate soaking and oxidation at a uniform temperature, nearly every grain of rice is found to have germinated, and the sprouts have grown about twice as long as the rice grains. The malt will then be ready to dry in the usual way or used at once as "green" malt for the manufacture of beer, spirits or glucose.

Mr. Cole is of the opinion that, while the invention may not be valuable in the United States, where the production of barley is large and the cost comparatively low, it seems likely to cheapen the cost of producing malt liquors in Europe and Great Britain, where they are consumed in such large quantities.

## RACE OF GIANTS TO COME.

Professor Henry L. Bruner on the Future Man.

"Strange men, far different from those now living, will walk the earth in centuries to come. They will be a race of brainy, four toed giants," says Henry L. Bruner, head of the biology department of Butler university, near Indianapolis.

"The chest and the upper and lower limbs of the coming man will be larger," prophesies Professor Bruner, according to the Philadelphia Press, "and the future man will be much taller than his brother of today. The future man will live longer. Within a few generations old age will not fall upon men until the century mark is reached. I believe that the ultra blond and the ultra brunette type will constantly decline. Uniformity of the color of the eyes and the hair, however, will never be reached. The man of the future will have superior teeth and hair. Thought saving machinery will relieve the future man of much of his present routine of brain work. The sex of the future man will be predeterminable. For a time there will be a preponderance of one sex and then of another."

To Photograph a Building Daily.

It is reported, according to the Boston Budget, that a camera has been placed so as to take each day one picture of the new building of the department of physics of the Cornell university now being constructed, with the object of producing hereafter a moving picture of the building from its beginning to its completion.

## YOUNGERS WANT A FULL PARDON.

SPECIAL TO THE DISPATCH.

St. Paul, Minn., Jan. 7--The Younger brothers today petitioned the board of pardons for a complete pardon. They desire to return to Missouri.

Filed The Complaint.

SPECIAL TO THE DISPATCH.

Washington, D. C., Jan. 7.--Attorney General Douglas, of Minnesota, today filed in the supreme court a complaint against the Great Northern and Northern Pacific merger. Document contains ten thousand words.

## AUTOMOBILES IN COMMERCE.

Fourier Gives His Views Regarding the Vehicle's Possibilities.

Automobiling is a royal sport, as any one knows who has ridden in the chauffeur's seat of a forty horsepower machine on a well kept country road, writes Henri Fourier in January Success. But I do not plead for the automobile as a pleasure machine. I am not a faddist. The automobile is a commercial necessity. Its place is with the electric street car, the locomotive and the traction engine.

While automobiling is now a fad among well to do Americans, although I think it will find a permanent place in recreation and sport, the future of the automobile does not depend upon its use by pleasure seekers. Its great commercial value is not yet appreciated even by those who are most interested in the development of the machine. It is a great time saver. In America "time is money" more than anywhere else in the world. The great newspapers in their race to get the latest news first to distant parts of their cities now employ automobiles to carry the papers from the press-rooms to the newsstands. They travel faster than the electric cars. To hospitals, to save human lives, send automobile ambulances to transport the injured more safely and quickly to the surgeons. The large shops are greatly improving their delivery service by using automobiles instead of vehicles drawn by horses. The problem of transporting light freight about a large city like New York is being solved by the automobile. Street railways have tried it, but they could not do it successfully because of the interference with passenger traffic and the impossibility of delivering goods away from the few streets where tracks are laid. An automobile delivery wagon does not have its route marked out by rails.

I look to see all the ordinary work of transportation in the great cities of the world, such as New York, London, Paris and Chicago, done without horses, and I think the change will be made much sooner than most people have any idea of. Everything will be done with greater dispatch, the streets will be less congested and, most important of all, clean. Think what a crowded thoroughfare like Broadway, New York city, would be with no horses in sight, only motor vehicles speeding about hither and yon!

## MODEL CITY AT ST. LOUIS.

Ideal Public Works Will Be Shown at the World's Fair.

Howard J. Rogers, chief of the departments of education and social economy of the St. Louis World's fair, was in New York recently to confer with the special committee which is planning the "model city" feature of the fair, says the New York World. The committee consists of Charles C. Height, John De Witt Warner, Charles R. Lamb, Albert Kelsey of Philadelphia and William S. Crandall. The conference was held at the National Art club in New York.

The Administration building will be taken as the municipal center of the model city, and around it will be grouped some of the most important administrative buildings found in a well developed city, such as public library, hospital, museum, public school, fire headquarters, police headquarters and at points adapted to such uses as garbage crematory and a filtration plant for purifying the water supply. There will be sample pavements of the various kinds in use in American cities, with everything else that is used above the street, on the street or underneath, all of which will be models of their kind. In addition there will be a classified exhibition showing municipal conditions as they are in American and European cities.

The Coronation Bible.

King Edward VII. has already ordered the coronation Bible from the British and Foreign Bible society to be used in Westminster abbey next June. It will be a large quarto volume, bound in red morocco, with gold clasps and stamped with the royal arms. It will become the property of the bishop who administers the oaths.

Governor Shaw Has Twelve Toes.

Persons who like to know all about physical peculiarities of public men will be interested in the information, according to the Washington correspondent of the New York Herald, that Governor Shaw of Iowa, the new secretary of the treasury, has six toes on each foot.

## CAN NOW TELEPHONE TO HEAD OF LAKES.

American Telephone & Telegraph Company Completes Its Line From Duluth.

## DIRECT LINE TO EASTERN CITIES.

Have Temporarily Placed a Booth In the Swanson Hotel Office For Patrons.

Brainerd is finally connected by telephone with the Zenith city at the head of the lakes, and a great convenience has been granted patrons of telephone lines along the line between that city and this.

H. Richardson, who has been in charge of the construction of this line for the American Telephone & Telegraph Company, is in the city and is showing business men and others courtesies in the way of allowing them to talk over the line to different parts of the globe. The line will be a great convenience not only to the business men of this city but also to the business men in other towns along the line.

Aitkin has not been "cut in" yet, and there is no telling when it will be, as Mr. Richardson is having some difficulty to get in there.

The American Telephone & Telegraph company is the largest in the world and for long distance there is nothing to compare with its equipment. Heretofore in telephoning to Chicago the Northwestern would carry the message as far as St. Paul and then it had to be transferred to the American. Now a telephone to Chicago, or any other eastern city in fact, goes over the same wire by the way of Duluth. There is a chance in this way of getting a better service.

On account of the very friendly relations between the American and the Northwestern there will be no great strife in this city for business. Most of the business between the Twin cities and Brainerd will probably be done over the Northwestern, but Brainerd now has the advantage that if one line gets out of order the other can be used.

## Neighborhood Gossip.

William Seefeld is on trial at Mankato charged with Arson.

Stephen Ferchery, a lad 18 years of age, stabbed his mother at Brockway, Stearns county.

Red Wing is looking for someone to put in an independent telephone exchange in that city.

The Wadena county bank at Verdale has been merged into the First National bank of the same place.

Gustaf Berglund, at Centre City, an eccentric young man who has been there for some years, was found dead in a haymow Saturday. He disappeared three weeks ago.

The village council of Cloquet has advertised for bids for the sale of \$20,000 of water bonds. It is understood that the lumber companies will take legal steps to prevent the sale of bonds.

In a Detroit paper is found the following card of thanks to an insurance company who promptly paid a claim to a woman of that city: "Aug. 9 my husband took out a policy and in less than a month was drowned. I consider it a good investment."

The village of Princeton seems to be situated in the potato belt in this state. About a week ago a trainload of 50 cars were shipped from there to points in Iowa, Missouri and other southern states. The potatoes were grown on 170 acres of land and represent \$21,000 for 30,000 bushels.

W. W. Wolf, the veteran lumberman, who has been making Akeley his headquarters this winter, had the misfortune to have his shoulder dislocated last Sunday, by being thrown from a sleigh. You can't keep a good man down, however, and when last seen was telling what a good doctor we have in Akeley.--Akeley Independent.

# CLEARING SALE.

## CALE & BANE'S Department Store.

A visit to our store costs nothing, still it will pay you.

## SCHOOL MEETING CERTAINLY FIERCE.

A Large Crowd Gathers At Meeting of Board of Education—Last Night.

BOARD WOULD NOT BUDGE.

Turned Down a Proposition to Reconsider Action of Last Friday Night.

There was a meeting of the board of education last night at the Washington school building, and in anticipation of the revival of the controversy in the city schools which resulted in the board of education suspending Miss Elizabeth Somers, a crowd gathered in one of the school rooms to the north of the superintendent's office to the number of about one hundred, many among whom were business men. A real warm time was anticipated also and from certain standpoints some real "warm stuff" was dished up, when James J. Nolan made a talk before the board openly and without curbing his speech attacking Superintendent Torrens before the crowd of people. To those who listened to the scathing, denouncing sentences as they fell from the lips of the speaker, it seemed that it certainly must cut pretty deep. Mr. Nolan's talk was the most conspicuous part of last night's proceedings. The board did nothing with the strong petitions, but referred them to a committee of the whole, then J. H. Dickinson turned around in his chair and sarcastically remarked, "Thus endeth the first chapter."

All members of the board were present when President Hagberg called the meeting to order. The reading of the minutes was dispensed with and the president asked the gentlemen present to state their mission.

Judge W. A. Fleming was the first to rise to his feet. He stated that he supposed that it was no secret about what the delegation appeared before the board for at that time, for he stated that he had been asked by some of the parties interested, to come before the board on behalf of one of the teachers, Miss Somers. Judge Fleming said that all was interested in the schools of the city; that the duties of the board of education were not always pleasant ones; the members devote most of their time for the interest of the schools without pay, and nothing can be construed from a pecuniary point of view. The board's services almost rises to a point of patriotism.

The judge stated that it was too bad that such a matter as this had agitated and disturbed the schools. The question arises, how in a given instance, such as the one considered at this time, should a teacher in the public schools be dismissed? What is right? Was it right in this matter to dismiss a young lady teacher in the matter in which she was dismissed? He asked the board to consider the manner in the right light; to give it further investigation and not to decide too hasty in the matter. He stated that if he had any doubt but that the lady was not dismissed in the right manner, the two petitions which were presented to the board dissipated any such doubt. The judge made a very fair statement and it is thought made a good impression on the board in presenting the petition signed by nearly all the business men and others of the city asking the board to reconsider its action of last Friday evening.

Others were called upon to voice their sentiments in the matter. At this juncture J. J. Nolan arose. He started out by saying that he did not feel any resentment toward the members of the board of education over the action they had taken at the last meeting in regard to the controversy in question, for he thought that the members believed that they had done their duty in the matter, but still if the matter was presented in a different light, he thought that the board would act differently. He stated that the delegation present ought to have some bearing on the question; that it showed a deep interest. Mr. Nolan pointed blank made the assertion that the action of the board was taken under misrepresentations from Superintendent Torrens and that this could be proven. Mr. Nolan then turned to a personal instance of his own and his experience with Superintendent Torrens. He stated that the last year he was employed in the schools of the city. At the time the teachers were reelected he asked for a raise in salary and went to the superintendent with his request. The raise was promised and Mr. Nolan stated that Supt. Torrens turned around and put "plugs" in against him although the promise was made. He referred to a letter written by Prof. Torrens to him in which it was said that he made all kinds of overtures, but turned right around and wrote another letter to Mr. Dickinson of the board directly opposite.

Mr. Nolan went on and recited a little "hay stack" instance at the home of Mr. Dickinson when he was told to meet the teachers committee there. He said that instead of talking to him direct the superintendent and Mr. Dickinson went out to feed the horse and when they came back they had it all "fixed."

Mr. Nolan grew rather eloquent and said that he did not think that the board, with all its other arduous duties, ought to have to contend with the villianly of such a man as superintendent Torrens. He called him a liar, a dishonorable man and everything else and said that he could prove what he was talking about. He said that if the teachers of the city were interviewed and they were not afraid to lose their jobs that they would say that he was the same thing. He also claimed that Supt. Torrens was incompetent and cited some instances.

J. H. Dickinson also made a talk and told about his experience with teachers and said that he had had so much experience with them that he thought that he could "warm it to them as well as anyone." He claimed that Mr. Nolan was wrong; that Supt. Torrens did work for a raise of salary for Nolan. Mr. Dickinson was outspoken in what he said and was frank enough to state that he had voted to suspend Miss Somers and if there was a man in the First ward who could say that he had not been honest with himself and constituents that he would step down and out.

M. J. Reilly also said a few words and asked the board what Miss Somers had been discharged for. He cited an instance where, while the majority of the board of inquiry ruled against Schley that the people were with Miss Somers he said had the people in the city with her, and because she dared to stand out as a free American citizen and rebel she was suspended from the schools. He said he did not think there was any doubt about Superintendent Torrens' incompetency. He said if he could go around the block and find two or three men who would say otherwise he might be mistaken but he had talked with any number and found the same facts to be true.

Prof. Torrens was called for someone suggesting that he had been pretty well raked over the coals. Prof. Torrens came forward and made a statement. He said that he was not there to plead his own case; that he would respectfully refer the matter to the board, whom he had confidence in as men of honor. He said it was the first time he had ever been accused of such things and as far as some of the statements were concerned he knew them to be absolutely false. He stated that if he did not feel that he could fill the position honestly that he would gladly resign. He said it was pretty hard to hear such statements made, and that too, in the presence of some of the boys of his high school.

Edward Somers made a few remarks regarding the charge that his sister was tardy.

Later in the evening after much of the business had been transacted the matter was taken up again and there was some considerable discussion. It was stated by Secretary Mahlum, of the board, that he had known of Supt. Torrens' working on behalf of Mr. Nolan for a raise of salary.

Finally a motion was made that the matter of suspending Miss Somers be reconsidered. A vote was taken by ballot and it resulted in a complete defeat of the motion, three of the board voting for reconsideration and seven against it.

A motion was made before adjourning, that in view of the fact that Mr. Nolan had made statements in open meeting that Supt. Torrens last summer worked against his getting a raise of salary, the teachers' committee be authorized to make a written statement and have the same published.

Two million Americans suffer the torturing pangs of dyspepsia. No need to. Burdock Blood Bitters cure. At any drug store.

## WILL INVESTIGATE MOST EVERYBODY.

Alderman Wright Out With His Little Pail of War Paint at Council Meeting.

DR. BRACKEN AT THE MEETING.

Confirms Report of Dr. Thabes That Brainerd is Not Getting Good Water.

There was a meeting of the city council last night in chambers, with President Crust in the chair. Present, Aldermen Gardner, Purdy, Koop, Fogelstrom, Doran and Wright.

The reports of the different city officers were received and filed.

Dr. Bracken, of the state board of health, was present and was introduced by Dr. Thabes to the council. He spoke at length about the water that is being pumped from the river for the city's use. He spoke of an analysis which had been made by one of the state chemists. Tests of the water were taken at Rice Lake, outlet of Mississippi at Rice Lake, at the dam, at the reservoir pump, water after passing through the filters and at Dunn's drug store. It will be remembered that the matter was brought up at a meeting of the council sometime ago, when Dr. J. A. Thabes made a report on the filtering system of the city. At the time the doctor reported that the filters at the pumping station were entirely inadequate, and recommended that something be done. On the night that the report was read President Tighe, of the Minnesota water works Company, happened to be present and he addressed the council on the matter at length and tried to show them the condition of the water as he thought it was; and said at the time that he would refer the matter to Secretary Bracken, of the state board of health.

Dr. Bracken stated last night that the report of the chemist showed conclusively that Brainerd was not receiving pure water. Also confirmed Dr. Thabes in his report to the effect that the filters were entirely inadequate for the demand that is made upon them.

Alderman Wright called Dr. Bracken's attention to the agreement in the contract between the city and the Minnesota Water Works Company to the effect that the company is supposed to furnish water absolutely pure. Dr. Bracken stated that the agreement was not being kept.

Alderman Wright then moved that a committee of three be appointed to arrange for a public meeting. The motion carried and the chair appointed Messrs. Wright, Purdy and Doran.

A letter was read from Alderman George E. Gardner in which he offered to lease his hall to Company F. for \$300 a year. No action was taken in the matter last night.

An ordinance was read amending the ordinance providing for a license for conducting public auctions. It seems that there were two amendments prepared, so that the matter was laid on the table until the next meeting.

Alderman Wright, of the Second ward, got out his war paint and everybody in turn came in for a little slice of notoriety in some way or other. He first called attention to the fact that there was a cutting affray in this city on the night of December 29, and he wanted to know why the police had made no arrests in the matter. He stated that the assailant might be abroad in the land with a knife and might butcher up others for all the police seemed to care. On motion the matter was referred to the health, sewerage and police committee to investigate.

Alderman Wright got his second wind and landed square on the Arlington Hotel this time. He called attention to the fact that a young girl, as he understood it, had been taken to one of the rooms in the hotel and not only debauched but said that he had learned that liquor had been sold to her. He wants Landlord Wise to show cause why his liquor license should not be revoked.

Here is where the newspapers got touched up a little. Alderman Wright presumed to know just what the newspapers of the city would or wouldn't do in certain cases and for a time it looked as though a committee would be appointed to investigate why the name of the Arlington hotel was not mentioned at the time the story was published regarding the

instance above referred to. He served as a mouth piece and informed those present that if it had been the Swanson or some other hotel that the names would be published but did not see why the Arlington was always shielded.

The matter of the Arlington hotel was finally referred to a committee consisting of Alderman Wright, Doran and Purdy.

Alderman Wright was up again and this time wanted a committee to investigate the matter of the presentation to Mayor Halsted of a \$275 diamond stud. An item in one of the Twin city papers referring to the stud and saying that it had been given Mr. Halsted for his position on the high license question attracted Alderman Wright's attention and he did not think that it ought to be published to the world that the mayor had received anything for doing such a thing.

The matter was finally referred to a committee to investigate.

The electric light committee was instructed to act with the city clerk and fix the rate for the Brainerd Opera House.

## MUSIC AND DRAMA.

NORTH BROTHERS COMEDIANS.

North Brothers Comedians will be at the Brainerd Opera House on Thursday, Friday and Saturday of this week and they will present several productions of a high order at popular prices. There will also be a matinee on Saturday afternoon at 2:30 o'clock. The following from the Duluth Herald will be of interest at this time:

A number of repertoire companies have played here since last spring, but none have given the satisfaction or done the business that North Bros. have either on this or their previous engagement last April. They have presented all their plays in an artistic, painstaking and highly creditable manner, their repertoire including such heavy pieces as "Camille," "Celebrated Case," "Faust" and several others which were all well produced. The members of the company are all actors of ability. The specialties are also excellent and all receive their share of well merited applause. The company has also added a new team this week, the Winneger Bros., who will be seen in both single and double singing and musical turns. Taken all in all this is the best popular priced attraction that has played the Sixth Avenue theatre.

Sale of seats opens tomorrow morning at H. P. Dunn & Co's. Prices 50c, 35c, and 25c. Matinee prices, 25c and 15c.

## "SECRET SERVICE."

"Secret Service," Gillett's great military drama will be presented at the Brainerd Opera House next Monday night by Daniel Frawley and Company. William Gillett has been responsible for many successes, but this is his crowning achievement. The role in which he formerly appeared, that of Capt. Thorn, will be assumed by Mr. Frawley, who is said to have duplicated Gillett's triumph in the part. On the present tour Mr. Frawley, has the best and largest company he has ever had under his management. The organization numbers some twenty people and some of them are among the best known members of the dramatic profession. Seats on sale Saturday morning at 10 o'clock at H. P. Dunn & Co's drug store. Regular prices.

LOST—A purse containing a small sum of money, two baggage checks and two Cass county orders. Finder can have money. Return to Dunn & Co's drug store.

## CUBAN POSTAL FRAUDS

TWO CLERKS GIVE TESTIMONY  
REGARDING THE SALE OF  
STAMPS.

GAVE THE MONEY TO NEELY

Recalled About Eighteen Instances of  
Such Payments—No Record of the  
Transactions Were Made—W. H.  
Reeves, One of the Defendants, Ex-  
amined Regarding the Payment of  
Forged Warrants for Salaries.

Havana, Jan. 7.—At the continua-  
tion of the trials of the cases arising  
from the Cuban postoffice frauds in  
the Audencia court, Moya and Mas-  
cara, the two Cuban stamp clerks, tes-  
tified that they had received sur-  
charged stamps from Charles F. W.  
Neely without making record thereof,  
that they had sold them and had given  
the money received therefor to Neely.  
The two stamp clerks recalled about  
18 instances of such payments of  
about \$100 each. Moya said that Neely  
made no secret of these transactions  
and that Neely's clerks received this  
money when Neely was not present.

W. H. Reeves, one of the defendants,  
was on the stand for three hours. The  
fiscal examined Reeves with regard  
to the paying of four duplicate war-  
rants in the postoffice for the pay of  
employees in July, 1899, when Reeves  
was deputy auditor of Cuba, and in-  
volving about \$8,000. One set of war-  
rants had been drawn about the mid-  
dle of the month and another later  
and the names on them had been  
forged. Reeves said that both sets of  
warrants had been paid. He testified  
that Neely told him he had cashed  
these warrants. Reeves' testimony was  
contradictory in many respects to  
his previous statements. During  
Reeves' testimony Neely remarked  
that Reeves was getting himself into  
a tight place and that if he would  
keep on he would prove him (Neely)  
to be innocent.

CAVALRY ORDERED HOME.

Beginning of the Withdrawal of the  
American Troops in Cuba.

Washington, Jan. 7.—Acting in ac-  
cordance with a recommendation  
made by General Wood, military gov-  
ernor of Cuba, Secretary Root has di-  
rected that the Third Squadron of the  
Eighteenth Cavalry, comprising the entire  
garrison at Puerto Principe, be brought  
to the United States at the first favor-  
able opportunity. It is admitted that  
this is practically the beginning of  
the general withdrawal of United  
States from Cuba preparatory to the  
transfer of the control of affairs to the  
civil government to be installed dur-  
ing the coming summer. So far as  
known there will be no further with-  
drawals of troops, however, until final  
arrangements are made for the formal  
transfer of the government to the new-  
ly elected officials of Cuba.

NEWS FROM SAMOA.

Natives Ask the Commandant to In-  
crease Their Taxes.

Tutuila, Samoa, Dec. 24.—The gov-  
ernment has paid out \$1,200 as com-  
pensation for guns delivered by the na-  
tives last year.

At a recent district meeting of the  
natives a resolution was passed ask-  
ing the commandant to increase the  
native tax. The reason attributed was  
that the taxes should increase in pro-  
portion to the prosperity of the place  
under American rule.

Following the example set by Chief  
Lelato in road making other tribes  
have started to improve the roads in  
their towns. In Pago Pago especially,  
after waiting for the government to  
act, the chiefs have taken up the  
matter themselves and are now forming  
a road around the bay. Their difficulty  
commences when they have to cut  
through land owned by whites, who  
make objections and place obstacles  
in the way of the road making.

An epidemic of influenza has been  
passing over the islands and many  
deaths have occurred.

JUDGE IDE IS ILL.

Philippine Commissioner Succumbs to  
Climate and Hard Work.

Washington, Jan. 7.—Secretary Root  
has been informed that Judge Ide of  
the Philippine commission is ill from  
an attack of dysentery and has gone  
to Japan to recuperate. He is the sec-  
ond member of the commission to suc-  
cumb to hard work under trying cli-  
matic conditions. Judge Taft, civil  
governor of the Philippines, is now on  
his way home on the transport Grant  
for the benefit of his health and also  
to confer with the president and the  
secretary of war regarding affairs in  
the islands.

Hawaii Has to Retrench.

Honolulu, Dec. 31.—At a meeting of  
the executive council today it was de-  
cided that a general reduction of the  
scale of expenditures in the various  
government departments will be neces-  
sary in order to conduct the govern-  
ment without getting more funds by  
an extra session of the legislature. A  
schedule for the next three months  
was agreed upon to govern all the  
heads of departments. The home  
rulers and some Republicans continue  
to agitate for an extra session.

Marriage by Contract.

New York, Jan. 7.—The first con-  
tract marriage under the new Weeks  
law was filed during the day with the  
city clerk. This contract, certificate  
is an agreement between a man and  
a woman to live together as man and  
wife. Under the law any contract  
signed by the contracting parties, wit-  
nessed by a commissioner of deeds  
and filed with the city clerk within a  
month thereof, legitimizes the marriage  
and the progeny also.

## HAD TOO MUCH FIREWATER.

A Canadian Halfbreed's Wife Will Die  
as a Consequence.

Sault Ste. Marie, Mich., Jan. 7.—  
Joseph Buzenaw, a halfbreed Indian,  
went on a rampage at Garden River,  
a Canadian village about 12 miles  
from here, and as a result his wife will  
die. Buzenaw became intoxicated and  
after terrorizing the inhabitants of the  
village went to his home, where he  
gave his wife a brutal pounding and  
burned one side of her face with a  
red hot iron.

The woman crawled out of the house  
on her hands and knees and Buzenaw  
followed her to the yard, where he at-  
tempted to chop her head off with an  
axe. The woman's sister-in-law and  
others interfered, but the crazy man  
struck his wife a glancing blow with  
the axe, stunning her. He was taken  
to the jail and locked up, but he broke  
down the doors. Then he returned to  
his home and made an attempt to cut  
his wife's throat with a knife. Buzenaw  
finally escaped across the river to  
Sugar Island, in United States terri-  
tory. An armed party is after him.

Americans Get the Contract.

New York, Jan. 7.—The De Beers  
Consolidated Diamond Mines of Kim-  
berley, South Africa, have just award-  
ed contracts to American concerns for  
structural material and complete  
electrical equipment for a large plant,  
which will be utilized for general power  
purposes. The value of the combin-  
ed contracts is about \$200,000.

Germany's Exports Decrease.

Berlin, Jan. 7.—Complete returns  
from all of the consulates in Germany  
show that the total of German exports  
to the United States in the year 1901  
amounted to \$99,616,731. This is a de-  
crease of \$3,567,922 from the valuation  
of the same class of exports in 1900,  
and it is due entirely to the reduction  
of sugar exported to the United States.

Three-Cent Street Car Fare.

Cleveland, O., Jan. 7.—The 3-cent  
street railroad fare ordinance recently  
introduced in the city council at the  
instigation of Mayor Johnson has been  
passed by that body. The next step  
will be to bid for the new lines, which,  
if the programme is carried through,  
will add a number of new street car  
routes to the city's system.

Schley Calls on the President.

Washington, Jan. 7.—Rear Admiral  
Schley called at the White House by  
appointment and spent nearly an hour  
in conference with the president. The  
admiral refused to discuss the conver-  
sation, saying that it was of a per-  
sonal character. The president also  
declined to intimate the nature of the  
conference.

Declines German Tenders.

London, Jan. 7.—The Berlin cor-  
respondent of The Daily Express asserts  
that Lord George Hamilton, secretary  
of state for India, in a letter in behalf  
of the Indian government declining  
German tenders for railroad material  
gives as his reason for this action the  
anti-British feeling prevalent in Ger-  
many.

TELEGRAPHIC BREVITIES.

A bill to re-establish the army can-  
teen has been introduced in the house  
by Representative Kern of Illinois.

Lord Pauncefoot, the British ambas-  
sador at Washington, is still confined to  
his residence with rheumatic gout.

King Edward has conferred the Or-  
der of Knight Grand Cross of the Bath  
upon Marquis Ito, the Japanese states-  
man.

who has been acting president of  
Columbia university since the resig-  
nation of Seth Low, has been elected  
president by the board of trustees.

MARKET QUOTATIONS.

Minneapolis Wheat.

Minneapolis, Jan. 6.—Wheat—  
Cash, 79½c; May, 80½c; July, 81½c.  
On Track—No. 1 hard, 82c; No. 1  
Northern, 79½c; No. 2 Northern, 78½  
@ 79c.

Sioux City Live Stock.

Sioux City, Ia., Jan. 6.—Cattle—  
Beef, \$4.00@5.75; cows, bulls and  
mixed, \$1.50@4.25; stockers and feed-  
ers, \$2.50@4.00; yearlings and calves,  
\$2.50@3.75. Hogs—\$5.85@6.40.

Duluth Grain.

Duluth, Jan. 6.—Wheat—Cash, No.  
1 hard, 81½c; No. 1 Northern, 78½c;  
No. 2 Northern, 75½c; No. 3 spring,  
73½c. To Arrive—No. 1 hard, 81½c;  
No. 1 Northern, 78½c; May, 81½c.  
Flax—Cash, \$1.64½.

St. Paul Union Stock Yards.

St. Paul, Jan. 6.—Cattle—Fancy  
butcher steers, \$5.50@6.10; fancy  
butcher cows and heifers, \$4.25@4.75;  
good to choice veals, \$4.25@5.00;  
good to choice feeders, \$3.25@4.00.  
Hogs—\$5.50@6.50. Sheep—Good to  
choice, \$3.50@4.25; lambs, \$4.60@5.35.

Chicago Union Stock Yards.

Chicago, Jan. 6.—Cattle—Good to  
prime, \$6.30@7.30; poor to medium,  
\$4.00@6.00; stockers and feeders, \$2.00  
@4.50; cows and heifers, \$1.25@5.25;  
Texas steers, \$3.00@5.00. Hogs—  
Mixed and butchers, \$6.00@6.65; good  
to choice heavy, \$6.35@6.70; rough  
heavy, \$6.00@6.25; light, \$5.75@6.20;  
bulk of sales, \$6.10@6.35. Sheep—  
Good to choice, \$4.25@4.80; lambs,  
\$3.50@6.10.

Chicago Grain and Provisions.

Chicago, Jan. 6.—Wheat—May,  
84½c; July, 83½c. Corn—Jan., 64½c;

Oats—Jan., 45½c; May, 46½c; July,  
40½c; Sept., 33½c. Pork—\$16.90;  
May, \$17.35; July, \$17.32½. Flax—  
Cash Northwestern, \$1.66; Southwestern,  
\$1.62; May, \$1.69. Butter—Cream-  
eries, 15¢@24½c; dairies, 14¢@20c.  
Eggs—25c. Poultry—Turkeys, 8¢@11c;  
chickens, 7¢@9½c.

## ROOFING ORANGE TREES

Arizona's Fierce Sunlight  
Will Be Kept Out.

PLAN HIT UPON BY FRUIT GROWERS

A Close Screen of Willows and Wire  
Will Be Used Over One Thousand  
Acres to Protect the Citrus Growth  
From the Sun—Artificial Heat For  
Cold Days.

Work has begun in the Salt river  
valley on a gigantic scheme for grow-  
ing fruit indoors, writes the special  
correspondent of the New York Post  
from Phoenix, Ariz. The project in-  
volves the roofing of more than 1,000  
acres of orange, lemon and pomelo  
trees.

It may seem strange to persons who  
know this part of Arizona that pro-  
tection should be necessary to fruit trees  
in the Salt river valley, but to irriga-  
tionists who are aware of the evapora-  
tive powers of the Arizona sun a pro-  
tecting cover offers a solution of one of  
the most difficult problems which con-  
front orange growers. Arizona oranges  
on the New York market this month  
[December] brought the highest price  
ever known, but the crop was very  
short, less than half that of a year  
ago and not more than one-fourth as  
heavy as that of two years previous.  
For the shortage the growers blame  
the excessive heat of the last sum-  
mer, and it is to guard against a rep-  
etition of such a condition that they are  
preparing to cover their groves.

The plan is a simple one, elaborate  
only in its size. Poles will be put up  
in the orchards, and on these will be  
strung heavy wires in parallel rows.  
Then will be cut the heavy willow  
brush, the variety known as the water  
motus, which grows from five to ten  
feet high along all the water courses  
of Arizona. These sticks will be laid  
across the wires, with spaces between  
of from one-quarter to three-quarters  
of an inch, and thus form a roof which  
will not keep out the sun entirely from  
the trees, but will break the fierce  
heat of the midday sun. Thereby the  
earth about the roots of the trees may  
be kept moist by less frequent irriga-  
tion and thus prevent the hard baking  
of the soil, which prevents the proper  
spread of the roots.

Some time ago experiments were be-  
gun here in putting covers of canvas  
over orange trees, but that plan was  
abandoned because of the fact that  
the cloth covering kept out too much  
of the sunshine.

The work now in progress in the  
Salt river valley is being watched  
closely by the officials at the govern-  
ment experiment stations at Phoenix  
and at Tucson. While in Arizona the  
roofing for the orchards is intended  
primarily as a protection from the sun,  
it will also serve to keep out the frost  
which sometimes comes. It has been  
customary in the orange countries to  
build at night low fires through the  
groves or to make smudges. These  
methods, however, have never proved  
satisfactory, and to provide a better  
fuel extensive experiments are being  
made at Senator W. A. Clark's coal-  
fields at Gallup, N. M. Here it has  
been found that a composition made  
up of coal dust, held together by a  
small quantity of asphaltum, together  
with an equal amount of crude oil,  
provides an economical fuel which will  
give out strong and steady heat and  
hold its fire for a long period. This  
composition is being made into bricks,  
which can be easily handled and placed  
about the orchards. With the pro-  
tection of the roofs and the heat from  
these bricks of fuel it is believed have  
been found the safeguards which will  
do away with the obstacles which pre-  
vent in many localities the raising of  
citrus fruits at a profit.

FINANCIER AT FOURTEEN.

Chicago Boy Making Money in Stocks  
In Leisure Hours.

Jack Kohl, the fourteen-year-old son  
of Charles E. Kohl, a theatrical man-  
ager of Chicago, is showing a genius for  
successful speculation.

Jack is at Oxford school. He is a  
good scholar, but he does not care to  
play the ordinary games, says the Phil-  
adelphia Press. When Saturday comes,  
instead of taking a holiday, Jack visits  
brokers' offices, where he looks after  
his trades.

Jack's business operations are yield-  
ing him a steady income of \$150 a  
month from one stock alone. He has  
made much more than this from occa-  
sional single operations and sometimes  
has suffered loss. He dropped \$900 in  
Baltimore and Ohio, but is still holding  
on to his stock.

Story of the Kohlnoor.

There is a good deal of interest felt  
in the announcement that the Kohl-  
noor is to be the central jewel in  
Queen Alexandra's coronation crown,  
and it has revived many half forgotten  
stories about the famous stone. One re-  
lates that it was nearly lost through the  
forgetfulness of the man to whom it was  
entrusted for conveyance to England.  
This man was John Laurence, high in  
the Anglo-Indian councils, and he put  
it in a small tin box and tucked it into  
his waistcoat pocket. When he reached  
England, Mr. Laurence forgot all  
about it—worth only a few millions—  
and tossed the waistcoat aside. Queen  
Victoria sent for the jewel in a few  
weeks, and Laurence replied, "Why,  
you've got it." Then in another in-  
stant he remembered, and he rushed  
to his native servant to know if he  
had the box. The servant had opened  
the box and, finding only a large piece  
of glass, as he thought, had tucked it  
away among his master's souvenirs.  
It was sent in safety to the queen.

## CUBA'S FIRST PRESIDENT.

Tomas Palma Tells What His Most  
Important Work Will Be.

In his home at Central Valley, near  
Goshen, N. Y., a New York Journal  
representative found President Elect  
Tomas Estrada Palma the other night  
(Jan. 2). The veteran Cuban was sit-  
ting in his library. He greeted the re-  
porter pleasantly and said:

"Many gentlemen of the press have  
been to see me, but I could not tell  
them much because I had not received  
formal notification of my election.

"This night," he continued, "I re-  
ceived my first telegram. It is from  
Mendez Capote, president of the na-  
tional constitutional convention and a  
member of the board of elections. I  
have received many telegrams since,  
but this is the first. Now I am at lib-  
erty to talk. My son Jose will trans-  
late it."

Jose, a bright youth, who is studying  
law at Columbia, came at his father's  
call and read as follows:

Palma—According to the central com-  
mittee of scrutiny, I allow myself to as-  
sure you that the election was practically  
unanimous. The partisans of Maso fought  
only in a few provinces. The conviction  
here is that the vote taken represents the  
will of the people by an immense major-  
ity.

The president elect continued:  
"There are two things which I shall  
ever strive to accomplish. The most  
important is to strengthen the cordial  
relations existing between the republic  
of Cuba and the United States of  
America. The little island owes more  
to this country than it can ever repay.  
It cannot exist and prosper without  
the aid of this country. I hope and pray  
that we may live always in unity.

"My other object will be to conduct  
an economical administration, and un-  
der this head I hope to develop the  
isla de Cuba, principally the agricul-  
tural industries. I hope to secure a re-  
duction of tariff in this country so that  
the products of Cuba may be received  
here. Our principal products are sug-  
ar and tobacco. I hope that Cuba will  
produce but little that is grown in  
this country, even as I hope the United  
States will produce but little that is  
grown in Cuba, so that we may mutu-  
ally be benefited by the importation  
of our productions."

President Palma uses the choicest  
English, but with a pronounced Span-  
ish accent, and gesticulates eloquently  
with his hands while talking. His  
most eloquent utterance was made  
with tears in his eyes:

"I belong to Cuba, body and soul!"  
"I shall leave the United States in  
April," he continued, "and go to my  
fatherland, but I shall not go with the  
idea of living in luxury or with any  
feeling of vanity in my bosom. I shall  
go there to work like any factory hand  
or any laborer with the pick and shov-  
el, and every officer of my cabinet  
will be expected and compelled to do  
the same.

"God bless the press of this country!  
I owe much to it and expect much  
from it. I trust that your paper will  
set me right before the American peo-  
ple, whom I love so well, and not mis-  
quote me. From the bottom of my  
heart I am a Democrat."

KINETOSCOPE'S NEW USE.

Its Pictures Will Be Used in Scien-  
tific Experiments.

A kinetoscope of the latest pattern  
has been purchased by the Massachu-  
setts Institute of Technology in Bos-  
ton for the use of its classes and in-  
structors. The first use to which it  
will be put will be in illustrating the  
movement and character of air waves.  
The air about us is full of unnoticed  
sound waves, produced not by sounds,  
but by the various motions that make  
sounds. From certain positions these  
waves can be photographed, and a  
given wave, by means of the kine-  
scope, can be reproduced not only  
greatly magnified, but so as to show it  
in progress from one point to another.  
The great value of this moving picture  
of course lies particularly in the fact  
that the speed at which the wave  
moves can be regulated by the me-  
chanism of the kinetoscope—that is, al-  
though the speed of sound waves is  
about 1,120 feet a second, by means of  
the kinetoscope a wave can be made  
to travel visibly across the screen of  
the lecture room at a rate slow enough  
to permit careful analysis and study.

Another early use to which the kine-  
scope will be put at the Institute has  
to do with the solution of an important  
and difficult problem in the construc-  
tion of dynamos, concerning the rela-  
tion between an alternating current  
dynamo and the steam engine that  
supplies its power. The stroke of the  
engine on its piston is uneven, being at  
first strong and then diminishing to no  
power at all, a defect which has often  
been pointed out, but has not yet been  
fully remedied, and is hardly calculat-  
ed to afford the even power required  
by an alternating current dynamo. In  
the modern machine this difficulty is  
partly overcome by the use of a fly-  
wheel that smooths out some of the  
unevenness of the piston throbs, but it  
is hoped that the kinetoscope, by af-  
fording an opportunity of studying the  
present mechanism not only in a  
greatly enlarged form, but so regulat-  
ed in speed that the motion can be  
fully analyzed, will suggest some im-  
portant improvement.

Tapir Teeth Found in Kentucky.

Three molar teeth of a tapir were  
found at Yarnaton, near Lexington,  
Ky., some weeks ago and sent by Pro-  
fessor Arthur Miller, biologist of the  
State college, to Professor Osborne,  
dean of the biological department of  
Columbia university and a curator in  
the American Museum of Natural His-  
tory, for examination, says the Chicago  
Inter Ocean. They were returned the  
other day and pronounced genuine.  
The South American tapir was never  
before found this far north, and the  
find is an extremely rare one.

## WANTS.

ROOM TO RENT—Inquire at 407 4th  
street north.

General sewing wanted. Satisfac-  
tion guaranteed. 620 4th ave.

FOR SALE—A good substantial  
cutter. Also phaeton and harness  
Enquire at this office.

LOST—A small package containing  
one yard of pink silk and one and  
three-fourth of pink ribbon. Finder  
please leave at postoffice. 3t

WANTED—Men to learn barber  
trade. Advantage of steady prac-  
tice, expert instructions, etc. Years  
of apprenticeship saved. Can earn  
scholarship, board, tools and trans-  
portation if desired. Write for par-  
ticulars today. Moler Barber Col-  
lege, Minneapolis, Minn.

Coal stove for sale cheap. Enquire  
at 807 So. 6th St. 3t

Peter Walters desires to announce  
to the citizens of Brainerd that he  
has bought the ice business of Chas.  
Beck and will continue the same,  
guaranteeing his patrons good ser-  
vice and courteous treatment, giving  
his personal attention to the same.
